Care for Wooden Parts

Dos

Cleaning and dusting your furniture on a regular basis will help extend the life of the product. Dusting is best done with a mildly damp cotton cloth. Before dusting, lightly moisten the cloth with mild non-alkaline soap and water. A dry cloth can leave hairline scratches on the finish. However, for decorative paper laminates use a soft dry cloth. Please refer to the care section on decorative paper laminated surfaces for details. Ensure that no water is left in the grooves and edges after cleaning, as this may result in the beginning of deterioration of the wood, which ultimately results in swelling and weakening of the structure.

Use coasters / mats / tablecloth when keeping hot dishes on the bed-side table.

Clean spills immediately, preferably by blotting with a soft and dry cloth / sponge.

For natural wooden / veneered surfaces, hire a professional to polish the furniture once a year.

Don'ts

Avoid contact of solvents, alcohol, nail polish and polish removers with the furniture's surface.

Avoid sliding objects across the surface of the side table. Always lift and place the objects.

Do not allow sharp objects to come in contact with the furniture's surface.

Prevent contact with water and corrosive substances as they may damage parts of the product.

Avoid placing the furniture in direct sunlight, hot conditions (near fireplaces, heaters, radiators) and damp conditions (areas like basement, attic, garages and areas prone to leakage, seepage) to prevent deterioration in the furniture quality.

Do not polish processed wooden surfaces (laminated, membrane pressed). With proper care, these surfaces will maintain their finish.

Avoid using abrasive cleaning agents like nitro based thinners, acetone, nail varnish removers as these can damage the surface.

While mopping the floor, avoid contact of the mop with the headboard / footboard base, wardrobe base, side-table base etc. as prolonged contact may result in fading of the finish / colour.

Special Instructions for Decorative Paper Laminated Surfaces

Dos

Regular cleaning and dusting of your furniture will help preserve its quality in the long run.

Direct contact of liquids with laminated surfaces should be avoided at all costs. Clean spills immediately, preferably by blotting with a soft and dry cloth/sponge.

Don'ts

Do not clean with a damp cloth. Only a dry and soft cloth must be used for cleaning.

Do not expose paper laminated surfaces to humid conditions.

Do not use any sort of adhesive tape on laminated surfaces, the removal of which, will cause peeling of the laminate.

If needed, please find out from a Godrej representative, the type of lamination used in your furniture.

Care for Mirror

Do

For cleaning the mirror, use clean warm water with a soft, grit-free cloth or a newspaper for quick cleaning.

Don'ts

Cleaning the surface of the mirror with a dry cloth can leave scratches on the glass surface.

Avoid any kind of impact on the mirror surface as it may cause the surface to shatter / break / crack.

Avoid keeping the edges of the mirror wet for prolonged periods of time.

Do not use acid / alkaline / abrasive cleaners on the mirror surface. This is to avoid damage to the edges and the backing of the mirror.

Never spray a cleaner directly on the surface of the mirror. Instead apply the cleaner to the cloth and then wipe the mirror.

Do not apply any cleaning agent to the mirror backing.

Care for Metal Parts

Dos

Surfaces must be regularly cleaned and dusted to extend the life of the product. The surface can be cleaned with a soft, moist cloth and a neutral soap followed by wiping with a dry cloth.

For chrome plated surfaces also, the above process should be followed. Occasionally and for removing stubborn marks and stains, chrome polish should be applied. The polish should then be wiped off with a clean towel after burnishing.

Don'ts

Prevent contact with water and corrosive substances as they may damage parts of the product.

Avoid exposure of furniture to damp conditions to prevent deterioration in furniture quality.

Do not use abrasive cleaners as these tend to scratch or dull metal surfaces. This is particularly important for chrome surfaces, where vinegar, nail varnish removers, nitro based thinners, petrol etc. should never be used for cleaning.

Do not use steel wool or scouring pads to clean metal parts.

Transportation and Shifting of Furniture

While shifting furniture within one's home

Check the furniture thoroughly for any loose joints, cracks etc. and fasten / secure or fix the same before shifting.

The bed should always be lifted and placed in a new position. The bed should not be lifted by the headboard and the footboard. Instead, it should be held from all 4 corners of the bedstead. Use sufficient manpower to lift and move the furniture.

Always empty the wardrobes / bed storage completely of all contents including removable shelves and drawers and lock the wardrobe before shifting.

The wardrobe should be tilted either backwards or sideways and then lifted from the base. Use sufficient manpower to lift and move the furniture.

Always remove the drawers and mattress before shifting the bed.

In case of any difficulty, it is advisable to contact company representatives, more so in case of heavy and bulky furniture.

The bed / wardrobe / side table / dressing table should not be dragged or pushed as this may lead to misalignment of the panels and hence weakening of the structure.

Move furniture slowly and carefully. Bumping it against doorways, walls etc. can cause damage to the furniture.

When moving home...

- Transporting furniture from one location to the other involves dismantling / reassembly
- Please contact a company representative for dismantling and reassembly

General Instructions

- Prevent kids from standing / jumping on the lid of the under-storage and on the wardrobe shelves. It may hurt them as well as damage the panel.
- Dropping or other impact of pointed objects on the panels will damage / chip-off the panel surface
- We recommend opening and closing the doors, drawers and lids gently. When open, the angle of the door should not push beyond its body level i.e. 90 degrees.
- Before opening the drawer or the door, check whether they are locked or unlocked. Do not force open the doors / drawers when they are locked.

Material Properties & Natural Occurrence

Defects arising due to natural wear and tear / property of basic material used:

- Wood is a natural product and as such, natural wood surfaces have irregularities in their structure and colour which are unavoidable. Such irregularities are characteristic features of natural wood. However, processed wood surfaces show more uniformity in terms of structure and colour.
- Natural wood shrinks or expands under extremely low or high atmospheric moisture respectively. Therefore, the halves of a table may part slightly or a few tiny openings may appear on a solid wood surface or on the finger jointed surfaces. This constitutes neither a quality defect nor cause for complaint.

WARRANTY POLICY

- BEDS – METAL AND WOODEN • HEC / WALL UNITS • COMPUTER TABLES • COFFEE AND CORNER TABLES • SOFAS / SOFA-CUM-BEDS
- STUDY CENTRES • CHESTS • WOODEN WARDROBES • SHOE CABINETS • DINING TABLES – METAL AND WOODEN • DRESSING TABLES
- RECLINERS • TV TROLLEYS • STORWEL AND STEEL CUPBOARDS

1. Godrej Interio products are offered with a warranty of ONE YEAR from the date of purchase by the original purchaser against manufacturing defects.
2. Godrej Interio products like TV Trolleys, Corner Tables, Study Centres, Shoe Cabinets and Computer Tables are offered with a warranty of SIX MONTHS from the date of purchase by the original purchaser against manufacturing defects.
3. The decision to repair / replace any piece of furniture will be at the sole discretion of the Company, based on the report submitted by the Company's service representative.
4. The Company shall at its discretion restrict itself to repairs / rectification / replacement of the Component as a consequence of manufacturing defects (hereinafter referred to as 'Service').
5. As a valued and esteemed customer the Company or its Service Provider shall endeavour to provide service within reasonable time.
6. The Company shall endeavour to service the Product under the Warranty period. However, keeping in view the Godrej Policy to offer the latest and the best, the product range may keep varying with the introduction of new and varied models. Any model of the product that has been discontinued will be repaired / rectified by the Company at its sole discretion depending upon the availability of the spares.
7. The Customer is informed that after the devised repairs / rectification and / or alteration, if any, to mitigate the problem the Product may be subject to change in appearance compared to the Product as originally purchased. For wooden, metal and upholstered parts, the replacement component may have a shade different than the original.
8. Warranty does NOT include following:
 - i) Glass items like tops wherein warranty ceases at the time of acceptance of the Products.
 - ii) Scratches, dents, stains, wrinkles, colour-fading, weaning / beading of fabric / leather including other changes developed due to normal wear and tear of the products during the usage.
 - iii) Fine hairline cracks in wooden / veneer surfaces, as they are part of the normal ageing process of wood veneers.
 - iv) Breakages / Damages on account of negligence, unintended usage, misuse, accident, any act of god, abuse, any agent like water / acid, etc. coming in contact with wooden member / leather, while shifting / transporting of products from one place to another etc.
 - v) Variation in grain / texture of wooden member, polish of wooden member, which occur during the normal usage of the products.
9. All rubberwood tops are made up of finger-joints and hence fine parting lines are visible. This is not a defect.
10. This Warranty is in lieu of all other Warranties, expressed or implied including the implied warranties of merchantability and fitness for a particular purpose. Godrej Interio will not be liable for any special, incidental, consequential, or indirect damages, even if it has a reason to know in advance that they are possible.
